3. Research Activities in the last academic year

Give a short description of the goals of your research.

Give a summary of the research progress you have made during the past academic year.

Briefly outline your proposed research for the current academic year.

Proposals submitted – List the title, funding source, dollars requested, and status (funded, denied, pending) of all research and travel proposals submitted during the past academic year. Include requests to both external and internal funding sources.

Conferences attended – List name of conference, date, title and type (poster/oral) of presentation (if any). Include local and non-local meetings attended over the past academic year.

Published/Submitted manuscripts – List complete citation of each article submitted, in press, or published during the past academic year.

--

Research Awards – List any awards received in the last academic year (e.g. “best poster”, etc.)

--

Proposals planned in the current academic year – List funding source and submission deadline (if known).

--

Conferences you hope to attend in the current academic year – List name, approximate dates, and type of presentation.

--

Manuscript submissions planned in the current academic year – List working title and journal.

--

4. Service and Miscellaneous activities in the last academic year

Service activities (SEAS officer, search committee member, etc.)

Outreach activities (Presentations to the public, science fair judge, Dinosaurs and Disasters, etc.)

Professional societies in which you are a member, including the years of your membership.

Anything of significance not included above
